

CB500F

YOU DON'T HAVE TO CROUCH TO CARVE

The true measure of any motorcycle is how much fun you'll have on it. And by that standard, the Honda CB®500F is one of our best bikes ever: Progressive styling. Modern performance. A classic riding position. At its heart is a 471cc parallel-twin powerplant that returns an estimated fuel economy value of 71 MPG.* With its light weight and low seat height, the CB500F is a great choice for riders ready to move up to a bigger motorcycle. And this is a sportbike built to carve corners, not cut them—you can even get anti-lock brakes as an option.
