

2015 INTERCEPTOR

REFINEMENT NO OTHER
BIKE CAN TOUCH.

Spend enough time on this Earth, and you begin to recognize the difference between hype and quality. Between what everyone else does, and what you want to do. That's what the Honda Interceptor® has always been about—the thinking rider's motorcycle. It's a bike that performs as well in the curves as it does on the open road. Its 782cc V-4 updated VTEC® engine is unique in the motorcycling world, an Interceptor hallmark famous for its wide powerband and abundant torque. It also includes an adjustable seat height to better fit a range of riders and a front-mount radiator for a slimmer profile. Want to add features like traction control, anti-lock brakes, self-cancelling turn signals, a centerstand and heated grips? Then check out our Deluxe model.
