CB300R ABS

THE CENTER OF ATTENTION, WHEREVER YOU PARK

For riders who demand a light, nimble, responsive, powerful, and economical machine that will turn heads on every corner - now's your chance to ask for more. The CB®300R represents the perfect combination of features to support the way we're riding today. It's tuned to excel in real-world road conditions, with plenty of power and precise handling. The Neo-Sports Cafe styling puts the engine and chassis hardware on display, for performance you can see. And anti-lock brakes help you prepare for the unexpected. On the CB300R, your demands are met with an unlimited supply of fun.

ALWAYS WEAR A HELMET, EYE PROTECTION AND PROTECTIVE CLOTHING. NEVER RIDE AFTER CONSUMING DRUGS OR ALCOHOL, AND NEVER USE THE STREET AS A RACETRACK. OBEY THE LAW AND READ THE OWNER'S MANUAL THOROUGHLY. CB® and Pro-Link® are registered trademarks of Honda Motor Co., Ltd. ©2021 American Honda Motor Co., Inc.

CURB WEIGHT	- 315 pounds (Includes all standard equipment, required fluids and full tank of fuel—ready to ride.)

One Year Included Transferable, unlimited-mileage limited warranty
Optional Extended Extended coverage available with a HondaCare Protection Plan®

FEATURES & BENEFITS

COMPACT ENGINE

The CB300R's compact 286cc DOHC four-valve, liquid-cooled, single-cylinder engine is a jewel with a free-revving, responsive nature. The engine also works extraordinarily well in real-world, road-riding conditions, providing plenty of power both around town and out on the highway.

LIGHT, STRONG STEEL CHASSIS

The concept behind a Neo-Sports Café machine strives for a perfect combination of handling, power, and athletic comfort. Great handling starts with a superior chassis, which is why the CB300R uses special frame construction designed to be both light and strong.

NEO-SPORT CAFÉ STYLE

Taking its styling cues from our CB1000R, the CB300R offers a fresh, contemporary take on the modern streetbike. Plus, the light weight and upright seating make it a blast to ride.

STANDARD ABS

Our Anti-Lock Braking System can be a big help in making controlled stops in less-than-ideal conditions, like on wet pavement or other compromised surfaces. It's a great choice whether you're using your new bike as a commuter or just riding it for fun, since it helps you stop with added confidence.
