2021 CBR300R/ABS

AGGRESSIVELY EFFICIENT

If you've got a soft spot for sportbike design and Grand Prix stylings, then the 2021 CBR®300R is your sweet spot between form and function. It's narrow, light, and a total blast to ride around town and on twisty back roads. The single-cylinder engine offers great fuel economy, with smooth and friendly torque delivery. And the responsive handling makes it fun for first-time riders, and for those looking to grow their garage. Available with our anti-lock braking system. Plus, hot new graphics over your favorite colors.

ALWAYS WEAR A HELMET, EYE PROTECTION AND PROTECTIVE CLOTHING. NEVER RIDE AFTER CONSUMING DRUGS OR ALCOHOL. AND NEVER USE THE STREET AS A RACETRACK. CBR® and Pro-Link® are registered trademarks of Honda Motor Co., Ltd. ©2021 American Honda Motor Co., Inc.

FEATURES & BENEFITS

SINGLE-CYLINDER ENGINE

A single is the perfect choice for a bike like the CBR300R. It's light, simple, fuel efficient and features a broad powerband with plenty of low-revving torque—just what you want in your first motorcycle, but geared for comfortable cruising at highway speeds.

NARROW SEAT & LOW SEAT HEIGHT

A low 30.7-inch seat height does more than help make sure the CBR300R fits a wide range of riders. It makes it easier to put your feet down at stoplights and in parking lots—a big confidence builder.

COUNTERBALANCE SHAFT

Because it features a counterbalancer, the CBR300R engine is a smooth runner. You get the narrow overall width and power advantages of a single along with the smoothness of a multi-cylinder bike.

SUPERSPORT STYLING

The CBR300R features full-cowl supersport styling and dual headlights, increasing aero efficiency and carrying the styling cues from our CBR-RR series.
