

# START YOUNG, RIDE RIGHT

Step up from the CRF50F to the Honda CRF110F, a tough, entry-level trailblazer with 109ccs of four-stroke fun. This isn't just any beginner's bike; it features a robust single-cylinder engine encased in a steel fortress of a frame. Starting it is a breeze with its electric start. It sports a semi-automatic four-speed transmission and an automatic clutch to ditch stalling fears for good. And with fuel injection, it fires up reliably in any weather, leaving the old-school carburetor hassles of the competition in the dust. Decked out with fresh graphics for 2025 that are straight off of our championship-winning CRF-R motocrossers, the CRF110F promises epic off-road adventures and mile-wide smiles for both experienced and young riders alike. Ready, set, ride!
