FEATURES & BENEFITS

RELIABLE ENGINE

The CRF125F's dependable four-stroke, single-cylinder engine offers good performance with a wide powerband—perfect for a wide range of riders, including beginners. Fuel injection makes it even better and more efficient.

PROVEN MANUAL CLUTCH

Honda's heavy-duty clutch is durable and helps promote smooth shifting.

STEEL FRAME AND SWINGARM

Less experienced riders are hard on equipment, especially when they're just starting out. That's why we gave the CRF125F a strong, twin-spar-type steel frame and swingarm that are built to handle the bumps and dings of off-road riding.

BIG-WHEEL VERSION AVAILABLE

Want something a little larger? Check out our CRF125F Big Wheel—the same great bike but a better fit for taller riders.
