

MIDSIZED ENGINE. SUPERSIZED FUN

There's no one-size-fits-all solution for dirt bikes, but the Honda CRF®125F gets pretty darn close. Sized right for young riders and smaller adults, it's full of features that help you focus on the best parts of the experience. First of all, it offers the kind of legendary reliability that's made Honda famous, so you know it will be part of your riding stable for years to come. Fuel injection eliminates carburetor woes, and is one reason behind the bike's easy-to-use power. The four-speed transmission and conventional clutch provides the control of a full-sized bike. Long-travel suspension delivers a comfortable ride. And a graphics package right off our factory MX bikes pumps up the pride factor too. For taller riders who want the same awesome features and powerband, check out the CRF125F Big Wheel. It's the same great idea, but with a taller seat height.

CRF/Fs ARE INTENDED FOR OFF-ROAD OPERATION ONLY. PARENTS NEED TO CONSIDER A RIDER'S AGE, SIZE, ABILITY AND MATURITY BEFORE ALLOWING THEM TO RIDE. ALWAYS WEAR A HELMET, EYE PROTECTION AND PROTECTIVE CLOTHING, AND PLEASE RESPECT THE ENVIRONMENT. OBEY THE LAW AND READ THE OWNER'S MANUAL THOROUGHLY. Always stay on established trails in approved riding areas. CRF® and Pro-Link® are registered trademarks of Honda Motor Co., Ltd. ©2022 American Honda Motor Co., Inc.

CURB WEIGHT	— 194 pounds (Includes all standard equipment, required fluids and full tank of fuel)

Six Months Included Transferable, limited warranty
Optional Extended Extended coverage available with a HondaCare Protection Plan®

FEATURES & BENEFITS

RELIABLE ENGINE

The CRF125F's dependable four-stroke, single-cylinder engine offers good performance with a wide powerband — perfect for a range of riders, including beginners. Fuel injection makes it even better and more efficient.

PROVEN MANUAL CLUTCH

The heavy-duty Honda clutch is durable and helps promote smooth shifting.

STEEL FRAME AND SWINGARM

Less experienced riders are hard on equipment, especially when they're just starting out. That's why we gave the CRF125F a strong, twin-spar-type steel frame and swingarm that are built to handle the bumps and dings of off-road riding.

BIG-WHEEL VERSION AVAILABLE

Want something a little larger? Check out our CRF125F Big Wheel — the same great bike but a better fit for taller riders.
