## 2022 CRF150R/Expert

### WINNERS START HERE

Getting the holeshot is the first, critical step to winning a race. And the same goes with choosing a racer's bike. That's why we build the CRF<sup>®</sup>150R and CRF150R Expert. These motocrossers are like giving a young rider a career holeshot—an advantage right from the start. Built around a high-performance Unicam<sup>®</sup> engine inspired by our open-class CRF450R, they provide a wide powerband without needing a ton of maintenance. And because winners come in all sizes, we offer two versions, both freshened up with new graphics this year to keep your young Red Rider looking like a winner too: Our Expert model uses the same great engine, but features bigger wheels, a longer swingarm and higher seat to better suit taller riders. Choose your weapon, and then get ready to win!

CRF150R/EXPERT IS INTENDED FOR CLOSED-COURSE OPERATION ONLY. ALWAYS WEAR A HELMET, EYE PROTECTION AND PROTECTIVE CLOTHING, AND PLEASE RESPECT THE ENVIRONMENT. OBEY THE LAW AND READ THE OWNER'S MANUAL THOROUGHLY. Showa<sup>®</sup> is a registered trademark of Showa Mfg., Inc. CRF<sup>®</sup>, Pro-Link<sup>®</sup> and Unicam<sup>®</sup> are registered trademarks of Honda Motor Co., Ltd. ©2021 American Honda Co., Inc.

<b>WHEELBASE</b>	- 49.6 inches, Expert 50.6 inches
<b>SEAT HEIGHT</b>	- 32.8 inches, Expert 34.1 inches
<b>GROUND CLEARANCE</b>	- 11.9 inches, Expert 13.2 inches
<b>CURB WEIGHT</b>	- 185 pounds, Expert 187 pounds (Includes all standard equipment, required fluids and full tank of fuel—ready to ride.)
<b>FUEL CAPACITY</b>	- 1.11 gallons

## FEATURES & BENEFITS

### UNICAM ENGINE

The CRF150R uses a Unicam engine based on our championship-winning CRF450R. Designed to give you excellent rideability and more power and torque across the rev range, the engine runs consistently at different tracks—it's an all-around winner.

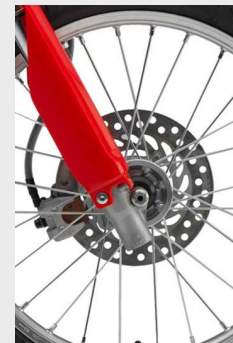

### ACCELERATOR PUMP

The CRF150R uses a carburetor featuring a "direct push" accelerator pump which gives you better, more immediate throttle response.

### TRACK-DESIGNED CHASSIS

A lightweight, high-tensile steel frame with large-diameter frame tubing and crossmember delivers excellent turning performance and straight-line tracking.

### FRONT DISC BRAKE

The front disc brake provides powerful, precise braking.
