PLENTY OF GET-OUT-AND-GO

There are plenty of ways to enjoy the great outdoors, but a dirt bike is one of the best. You get to see so much more, and you're totally immersed in all of the sights, sounds, and smells. And the Honda CRF[®]250F is one of our best trail-friendly two wheelers ever. For lots of riders, it's going to be the perfect size for your adventures. Its fuel-injected engine offers reliable power across a wide powerband, even in cold weather and higher altitudes, and there's no carburetor to fuss with if it's been sitting a while. The twin-spar frame is light, strong, and Honda tough. An electric starter makes getting up and running easy, and the styling is right off our championship-winning CRF motocrossers. When it's time to get out and go, this is the bike you'll want to be on.
