2021 CRF300L/RALLY

TWO GREAT BIKES GET EVEN BETTER

Balance is the key when riding any motorcycle. And we're not talking about just balancing on two wheels: We're talking about the balance between size, weight, power and handling that makes some bikes great. Like the new Honda CRF®300L and CRF300L Rally. Based on our previous CRF250Ls, for 2021, they now feature larger engines with more torque and a whole host of other refinements. What you end up with is one of the best-balanced bikes for on- and off-road use. Perfect for weekend trail rides, They're also one of the best choices for commuting or urban transportation. Pure and simple, these two bikes are a joy to ride . . . and a perfect example of Honda taking a great idea and making it even better.

ALWAYS WEAR A HELMET, EYE PROTECTION AND PROTECTIVE CLOTHING. NEVER RIDE AFTER CONSUMING DRUGS OR ALCOHOL. NEVER USE THE STREET AS A RACETRACK, AND PLEASE RESPECT THE ENVIRONMENT. OBEY THE LAW AND READ THE OWNER'S MANUAL THOROUGHLY. FEATURES & BENEFITS

SINGLE-CYLINDER ENGINE

A single is the perfect choice for a bike like the CRF300L and CRF300L Rally. It's light, simple, and returns excellent fuel economy. Plus, with the new, larger engine, there's even more power and torque.

RALLY BIKE STYLING

The tall windscreen, the extra-coverage fairing and side panels, the blended, frame-mounted bodywork are all marks of a true rally machine. The 2021 CRF300L Rally looks great, but you'll appreciate the extra wind- and weather protection too.

ENGINE COUNTERBALANCER

Because it features a counterbalancer, the engine is a smooth runner. You get the narrow overall width and power advantages of a single along with the smoothness of a multi-cylinder bike.

COMFORTABLE SEATING POSITION

With a long, motocross-style seat, you can move forward and back, left and right with ease, helping you navigate changing terrain in comfort.
