

STREET LEGAL. ADVENTURE READY.

Do it all, and do it with style. The 2026 CRF300L Rally builds on the standard model's torquey liquid-cooled single and long-travel suspension, adding a larger fuel tank and Dakar-inspired looks. Complete with dual headlights, a taller windscreen, and extended bodywork, this street-legal dual sport is down for wherever the ride takes you — on road or off.

ALWAYS WEAR A HELMET, EYE PROTECTION AND PROTECTIVE CLOTHING. NEVER RIDE AFTER CONSUMING DRUGS OR ALCOHOL. NEVER USE THE STREET AS A RACETRACK, AND PLEASE RESPECT THE ENVIRONMENT WHEN RIDING. OBEY THE LAW AND READ THE OWNER'S MANUAL THOROUGHLY. For rider training information or to locate a rider training course near you, call the Motorcycle Safety Foundation at 1-800-446-9227. FEATURES & BENEFITS

LIQUID-COOLED-SINGLE ENGINE

A liquid-cooled single-cylinder engine is the perfect choice for a bike like this. It's simple, fuel-efficient, compact, and powerful.

RALLY STYLING

The tall windscreen, extra-coverage fairing, and extended side panels are all features of a true rally machine. It looks impressive, similar to our Dakar-winning racebikes, and you'll appreciate the additional wind and weather protection.

LONG-TRAVEL INVERTED FORK

An inverted Showa® fork with large 43mm sliders, off-road-tuned spring rates, and 10.2 inches of travel provides excellent handling both on- and off-road.

EFFICIENT HEAT MANAGEMENT

Side cover shaping and radiator fan placement are designed to efficiently redirect warm air, keeping you cooler during long rides.
