

## RIDE IT ALL

Building a great dual-sport bike has to be one of the toughest jobs in motorcycling, but also one of the most rewarding. And that's why we're so proud of our Honda CRF<sup>®</sup>450RL. When it comes to versatility and features, it's way better than just a motocrosser with a license plate. And when it comes to off-road riding, it offers stellar performance where others compromise. Why is this bike so good? One reason is because we start with our CRF450X, with its six-speed transmission and excellent chassis geometry. And it's not what we've added, but what we haven't — which is how we've kept the CRF450RL light and nimble. What you get is a true dirt bike that can handle a wide range of terrain, that's built for long-term reliability, and that lets you ride just about any trail or terrain a motorcycle can handle — including pavement, which makes finding fuel (or lunch) a lot easier. So, ditch the pickup or the trailer: discover the world on a Honda CRF450RL.

ALWAYS WEAR A HELMET, EYE PROTECTION AND PROTECTIVE CLOTHING. NEVER RIDE AFTER CONSUMING DRUGS OR ALCOHOL. NEVER USE THE STREET AS A RACETRACK, AND PLEASE RESPECT THE ENVIRONMENT, OBEY THE LAW AND READ THE OWNER'S MANUAL THOROUGHLY. FOR RIDER TRAINING INFORMATION OR TO LOCATE A RIDER TRAINING COURSE NEAR YOU, CALL THE MOTORCYCLE SAFETY FOUNDATION AT 1-800-446-9227. Showa<sup>®</sup> is a registered trademark of Showa Mfg., Inc. # 2023 CRF450RL

CRF450RL

## SPECIFICATIONS

ENGINE TYPE	— 450cc liquid-cooled single-cylinder
BORE AND STROKE	— 96.0mm x 62.1mm
COMPRESSION RATIO	— 12.0:1
VALVE TRAIN	— Unicam® OHC; four valves per cylinder
INDUCTION	— Programmed Fuel Injection (PGM-FI), 46mm downdraft throttle body
TRANSMISSION	— Wide-ratio six-speed
FINAL DRIVE	— #520 Chain; 13T/51T
FRONT SUSPENSION	— 49mm leading-axis inverted telescopic Showa coil-spring fork with rebound- and compression-damping adjustability; 12.0-inch travel
REAR SUSPENSION	— Pro-Link Showa single shock with spring preload, rebound- and compression-damping adjustability; 11.8-inch travel
FRONT BRAKE	— Single 260mm disc with twin-piston caliper
REAR BRAKE	— Single 240mm disc
FRONT TIRE	— IRC GP21; 80/100-21
REAR TIRE	— IRC GP22; 120/80-18
RAKE	— 28.5°
TRAIL	— 4.8 inches
WHEELBASE	— 58.9 inches
SEAT HEIGHT	— 37.2 inches
GROUND CLEARANCE	— 12.6 inches
FUEL CAPACITY	— 2.0 gallons
CURB WEIGHT	— 291 pounds (Includes all standard equipment, required fluids and full tank of fuel)

## FEATURES & BENEFITS

### FULLY STREET LEGAL & OFF-ROAD CAPABLE

The CRF450RL is equipped with a catalytic converter and is fully street legal in all 50 states—and off-road capable just about anywhere on the planet. That means you can ride it wherever it's legal to operate a motor vehicle—in state and national parks, on the road, on public lands. Plus, you don't need to haul your bike to the trailhead in a truck or on a trailer.

### ELECTRIC START

An electric start system ensures trouble-free starting in all conditions. The electric starter also drives the clutch side of the crankshaft to provide superior lubrication to starter gears while producing a narrow engine with a short, strong crank.

### 450cc UNICAM® ENGINE

The CRF450RL's Unicam cylinder-head combines the best of single- and double-overhead-cam designs, and shares its DNA with our championship-winning CRF450R. The configuration saves weight compared to a dual-overhead-camshaft motor, and the camshaft sits lower in the head for a more compact engine and a lower center of gravity. You also get a narrow included valve angle that flattens the combustion chamber for better ignition flame propagation and a high compression ratio.

### WIDE-RATIO SIX-SPEED TRANSMISSION

Like our CRF450X, the CRF450RL rocks a wide-ratio six-speed gearbox. That gives you a low gear perfect for tight, slow situations, and a top gear that's tall enough for highway riding to the next gas stop or trailhead.
