2021 MONKEY

SWING BY ON A MONKEY

When the first Honda Monkey® swung onto the scene in the 1960s, it was an instant hit. But times change – and this Monkey has evolved. Looking for a better everyday way to get around town? The 2021 Honda Monkey just might be your machine. Need something practical to scoot around on once you've parked a bigger vehicle? This little primate is made for the job. Or maybe you're just looking for the best time you can have on 125cc's of pure fun. Yep. That's the Monkey, without a doubt. Available in eye-catching Pearl Nebula Red or cool Pearl Glittering Blue. There's an ABS version too. We guarantee you'll go bananas over it.

FRONT TIRE	- 120/80-12
REAR TIRE	- 130/80-12
RAKE	- 25°
TRAIL	- 3.2 inches
WHEELBASE	- 45.5 inches
SEAT HEIGHT	- 30.6 inches
FUEL CAPACITY	- 1.5 gallons (including 0.5-gallon reserve)
CURB WEIGHT	- 231.5 pounds (Includes all standard equipment, required fluids and full tank of fuel—ready to ride)

FEATURES & BENEFITS

125cc FUEL-INJECTED ENGINE

Nobody can match Honda's reputation for engines, and even though the Monkey may be compact, this single-overhead-cam design is a giant in terms of performance and reliability.

FOUR-SPEED TRANSMISSION

Sure, the Monkey is cute, but its four-speed transmission gives you all the durability, control and efficiency of a conventional motorcycle.

AVAILABLE ABS

Our Anti-Lock Braking System (on the Monkey ABS model) can be a big help in making controlled stops in less-than-ideal conditions, like on wet pavement or other compromised surfaces. It's a great choice whether you're using your new bike as a commuter or just riding it for fun, since it helps you stop with added confidence. ABS model only available in Pearl Nebula Red.

12-INCH WHEELS

Tough and strong, these cast wheels and wide tires are just what the urban rider needs.
