

## RETRO FUN, MODERN TWIST

Rediscover the joy of riding with the 2025 Honda Monkey. This retro-inspired marvel packs a punch with its zippy 124cc engine, shared with the Grom, ensuring every ride is a blast. Light and nimble, this miniMOTO is perfect for urban adventures and fits in the smallest parking spaces. With modern updates like fuel injection, a five-speed transmission, and front-wheel ABS, it's as smart as it is stylish. And for 2025, the Red colorway will surely turn heads. Fuel-efficient and fun, the Monkey isn't just a bike – it's a lifestyle. Hop on and let the fun begin.

## FEATURES & BENEFITS

### 124cc FUEL-INJECTED ENGINE

Despite its small size, it utilizes the same engine as our latest Honda Grom and delivers outstanding performance and reliability.

### STANDARD ABS

Our standard front-wheel Anti-Lock Braking System helps you ride confidently in less-than-ideal conditions, such as wet pavement or other compromised road surfaces.

### FIVE-SPEED TRANSMISSION

Here's a huge improvement over the original Monkey. This miniMOTO may look cute, but its five-speed transmission gives you all the durability, control, and efficiency of a conventional motorcycle. Plus, the extra gear increases top speed, too.

### LOW SEAT HEIGHT

Whether flat-footing it into a parking space or just stopping for a long light, the low 30.5-inch seat and light weight make it easy to maneuver and ride.
