

RETRO LOOKS. REAL HONDA FUN.

Small bike, big grin. The 2026 Monkey blends retro style with modern tech in a lightweight chassis, powered by a lively 124cc fuel-injected engine and front-wheel ABS for confident stopping. Now available in Matte Black Metallic, it's approachable, nimble, and Honda-reliable — turning every errand into an escape and every mile into a smile.

FRONT TIRE	— 120/80-12
REAR TIRE	— 130/80-12
RAKE	— 25°
TRAIL	— 3.2 inches
WHEELBASE	— 45.0 inches
SEAT HEIGHT	— 30.5 inches
CURB WEIGHT	— 231 pounds (Includes all standard equipment, required fluids and full tank of fuel)
FUEL CAPACITY	— 1.5 gallons

FEATURES & BENEFITS

124cc FUEL-INJECTED ENGINE

Despite its small size, it features the same 124cc air-cooled single-cylinder engine as our latest Grom, delivering outstanding performance and reliability.

INVERTED FRONT FORK

One major upgrade over the original Monkey is the inverted hydraulic front fork, which provides better control, confidence, and road feedback.

LOW SEAT HEIGHT

Whether flat-footing it into a parking space or just stopping at a long light, the low 30.5-inch seat and light weight make it easy to maneuver and ride.

STANDARD ABS

Our standard front-wheel Anti-Lock Braking System helps you ride confidently in less-than-ideal conditions, including wet pavement or compromised road surfaces.
