

BUILT SMALL. WORKS BIG.

Built for tight trails, narrow gates and getting more out of every ride, the 2027 Pioneer 520 brings together a 518cc liquid-cooled engine, compact 50-inch width and 1000-pound towing capacity in one hardworking package. Add a smooth-shifting automatic transmission, under-seat storage and a 450-pound tilt/dump bed, and you've got a side-by-side that punches well above its footprint.

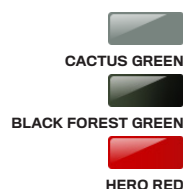

2027 Pioneer 520

FEATURES & BENEFITS

POWERFUL 518cc ENGINE

This 518cc engine is optimized for low-rpm torque and features electronic fuel injection, providing improved performance in cold weather and at high altitudes. The five-speed automatic transmission provides ample pulling power.

AUTOMATIC TRANSMISSION WITH AT/MT MODE

You can let the automatic transmission shift for you or control it yourself with its paddles. You can even shift from auto to manual (AT to MT) on the fly!

REDUCED HEAT CABIN

The cabin's interior is designed to reduce heat, creating a cooler, more comfortable environment. Now, those hot days — whether you're working or out on the trail — will be far more bearable.

COMPACT 50-INCH WIDTH

The 50-inch width is ideal for narrow trails and allows for easy storage, while also fitting in most full-sized pickup truck beds. The front locking differential lets you choose between 2WD and 4WD, optimizing for the conditions and terrain to provide either lighter steering or maximum traction.
