## 2022 Shadow Phantom

### STEALTH PERFORMANCE

Honda's Shadow Phantom® makes a point of standing out by not trying to stand out. In a world of look-at-me noise, its understated, confident style is a perfect match for what this bike is all about: performance, ride quality, practical muscle, and above all straight-up riding fun. Subtle visual highlights include spoked wheels, black rims, bobbed fenders and matte black accents. Then there's the engine, a blacked-out 745cc V-twin with a throaty twin exhaust, built to deliver the wide torque spread every cruiser rider wants. New colors this year keep it fresh, and the low seat height and pullback handlebar keep it comfortable. Pure Honda, pure performance, pure cool. The Shadow Phantom is exactly what you want from a modern cruiser.

### FEATURES & BENEFITS

#### V-TWIN ENGINE

Nothing pumps out the torque like a bold V-twin. The Phantom's power makes it perfect for both around-town cruising, commutes and casual weekend-long rides.

#### STYLISH FINISH

Bobber-inspired styling with extensive blacked-out and matte finishes.

#### LOW SEAT HEIGHT

Skimming the pavement at just 25.8 inches, the Phantom's low seat height makes flat-footing it at stoplights or in parking lots a breeze. And the Phantom's narrow seat/tank junction makes it feel even lower.

#### SHAFT FINAL DRIVE

Clean, efficient, proven, low-maintenance. Shaft final drive is the perfect choice for a machine like this, and for riders who pile on the miles. You never have to worry about lubrication or adjustment out on the road. And an added plus: it helps keep your bike cleaner, too.
