

THE TALON YOU'VE BEEN WAITING FOR

There's big news this year, and that's our new Talon® 1000R-4 FOX Live Valve. This new Talon really extends our Talon family line, bringing you a four-seat model built for rugged, wide-open terrain like our two-seat Talon 1000R. Plus, like the other models in our Talon line, the 2023 Honda Talon 1000R-4 FOX Live Valve is loaded with updates: Better mud and weather protection. New full-coverage doors with more storage. New aluminum wheels. New wiring that makes adding accessories easier than ever. New accessories. New colors, and new suspension settings. Like every Talon in our lineup, it features our 999cc Honda Unicam engine and exclusive automatic Dual-Clutch Transmission (DCT) driveline. And make sure you check out our other Talons too.

2023 Talon 1000R-4 Fox Live Valve

FEATURES & BENEFITS

POWERFUL 999cc TWIN-CYLINDER ENGINE

Set longitudinally in the chassis and managed by our sophisticated PGM-FI engine-mapping system, the Talon 1000R-4's 999cc liquid-cooled inline twin delivers the kind of powerful torque and quick-revving horsepower you want.

FOX LIVE VALVE SUSPENSION

The Talon 1000R-4 FOX Live Valve features FOX Live Valve suspension with 2.5-inch shocks on all four wheels. The system adjusts damping on each shock independently, automatically, and up to 16 times a second for superior ride quality and less pitch and roll over all terrain.

AUTOMATIC SIX-SPEED DCT TRANSMISSION

Choose between manual or fully automatic. With DCT you control what engine speed and gear ratio you want, or you can let it do all the thinking for you. You also get genuine engine braking and more efficient power delivery than a belt-driven CVT.

STADIUM SEATING

Compared to the front seats the Talons' rear seats are almost three inches higher and two inches closer to each other, giving the rear-seat passengers a much better view.
