

TIGHT TRAILS? NO PROBLEM!

Because you know your riding terrain better than anyone, we give you a choice when it comes to our Honda Talon models. The Talon 1000X is built for tight trails and technical terrain. Its shorter wheelbase and narrower stance deliver unmatched agility. But when it comes to the drivetrain, it's all about performance: the 999cc Unicam® engine and automatic Dual-Clutch Transmission provide the predictable power you need. And make sure you check out our Talon 1000X FOX Live Valve model too, offering semi-active suspension which automatically adjusts for precise handling and an unmatched ride over any terrain.

FEATURES & BENEFITS

POWERFUL 999cc TWIN-CYLINDER ENGINE

You'll experience unparalleled power with our liquid-cooled 999cc parallel-twin engine, boasting high horsepower, ample torque, and unmatched refinement throughout the rpm range.

AUTOMATIC SIX-SPEED DCT

Our automatic Dual-Clutch Transmission (DCT) boasts a class-leading gear-driven setup, giving you manual or automatic control. It has efficient power delivery, true engine braking, and superior performance compared to belt-driven CVTs.

FULL-COVERAGE HARD DOORS

Hard doors are standard, offering full coverage and excellent weather protection. They provide extra storage space with cupholders and secure compartments. Doors use a double-latch design that's rattle-free.

SHORTER WHEELBASE

The 87.6-inch wheelbase contributes to this sport side-by-side's tracking while also giving you a super-smooth ride. At 64 inches wide and shorter than the Talon 1000R, the Talon 1000X emphasizes quick handling and maneuverability.
