

EUROPEAN CLASSIC. AMERICAN FAVORITE.

The Transalp is that one motorcycle so many riders dream of: a bike that can do it all, especially when you want to ride pavement, dirt roads, and for long distances. It's a legend in Europe, and for good reason: It combines power, smoothness, capability and comfort in a way that you'll come to love more and more as the miles pile up. New this year: Honda RoadSync makes navigation to your next adventure easier than ever.

ALWAYS WEAR A HELMET, EYE PROTECTION AND PROTECTIVE CLOTHING. NEVER RIDE AFTER CONSUMING DRUGS OR ALCOHOL, AND NEVER USE THE STREET AS A RACETRACK. RESPECT THE ENVIRONMENT WHEN RIDING. Transalp® is a registered trademarks of Honda Motor Co., Ltd. ©2025 American Honda Motor Co., Inc.

FRONT SUSPENSION	— 43mm Showa SFF-CA inverted telescopic fork; 7.9-inch travel
REAR SUSPENSION	— Pro-Link® single Showa shock; 7.5-inch travel
FRONT BRAKE	— Dual 310mm discs; 2-channel ABS
REAR BRAKE	— Single 256mm disc; 2-channel ABS
FRONT TIRE	— 90/90-21
REAR TIRE	— 150/70-18
RAKE	— 27.0°
TRAIL	— 4.4 inches
HEIGHT	— 42.6 inches
WHEELBASE	— 61.5 inches
SEAT HEIGHT	— 33.7 inches (optional 32.6-inch accessory seat available)
FUEL CAPACITY	— 4.4 gallons
CURB WEIGHT	— 463 pounds (Includes all standard equipment, required fluids and a full tank of fuel)

FEATURES & BENEFITS

RIDE MODES

With five riding modes (Sport, Standard, Rain, Gravel, and a custom setting), you can adjust power delivery, engine braking, and ABS intervention. Switching between modes is easy.

UNICAM ENGINE DESIGN

Our Honda-exclusive Unicam® engine design, just like our Africa Twin and CRF450R, provides a compact cylinder head for optimal engine placement and superior performance. It's the perfect combination of form and function.

SPOKED WHEELS

Off-road bikes use wire wheels with traditional spokes for better performance on dirt. The 21-inch wheel on the front and the 18-inch rear wheel sizes offer a wide range of tire options for different terrain.

TFT DISPLAY

The Transalp's instruments features a 5.0-inch full-color LCD display with various options, showing details like speed, fuel level, trip distance, gear position, and much more. Even better, Honda RoadSync lets you link your Android™ or iOS™ device to your bike using Bluetooth® technology. It enables hands-free operation and displays the information you need right on your bike's instrument screen.
