FEATURES & BENEFITS

i-4WD

An industry-first brake-traction control system, *i*-4WD simplifies operation, you get the benefits associated with a locked front differential with none of the downsides, including lighter steering, better tracking at high speeds, and a tighter turning radius.

POWERFUL 999cc TWIN-CYLINDER ENGINE

Featuring especially strong midrange and top end, our class-leading 999cc liquid-cooled inline twin is compact, and delivers the kind of horsepower and torque you want and need.

CHASSIS AND SUSPENSION

Our refined chassis enables you to tackle terrain others would shy away from, with larger tires, long-travel independent front and rear suspension and huge ground clearance. The rubber mounted engine and exhaust system insulates against excessive vibration.

FOREST AND TRAIL MODELS

The Pioneer 1000's versatility is legendary. And the Trail and Forest Editions are loaded with factory-installed accessories and extras, like Warn winches, special wheels, cabin lighting, special paint and graphics, and much more.
